The Report. The committee, immediately after their appointment, organized and proceeded to he discharge of their duties. A sub-comthe discharge of their duties. A sub-committee was appointed to couler with the creditors of the old city, reporting from time to time to the general committee, and every effort has been made to come to a satisfactory agreement. The committee kept constantly in mind the views expressed by the meeting from which they derived their appointment, adversely to any settlement that involved the issuance of bonds by the Taxing-District, and the making of the coupons receivable

Whether the co action by the Legislature conterring on it the taxing power, is a question sow pending in the Supreme Court of the United States. We will not undertake to state the legal merits of this question. It is enough to say that at best the sword is suspended over our necks by a very slender thread. power of taxation, then how long will it be before the Legislature, at the instance of the creditors, will confer that power? Certainly creditors, will confer that power? Certainly not long, unless we can show that the exactions of our creditors are grossly unreasonable and unjust. No clear civil right is likely to be left long, in a land of law, without a remedy; and we cannot expect the Legislature to stand as a barrier between us and our creditors unless we can show that their demands are unconscionable, and that our reasons for rejecting them are not more sentimental than substantial.

Court of the State, and will be heard next April, the object of which is to compel the receipt of the coupons of Flippin compro-mise bonds in payment of the taxes of the Taxing-District. If this effort should be be bends would absorb the entire revenue of the Taxing-District for two years, which twould thus be left without one dollar to defray its current expenses, including the police and fire departments. This is a fearful condition to contemplate. Is it likely to come upon us? We would not be the prophets of evil; but in view of what the court has already decided, it would seem to require no very long stride to reach the conclusion so much to be dreaded and so full of mischief. At all events, these are dangers that events, these are dangers that are impending over us and which may soon fall upon us. It behooves us to look them

We have already funded a large amount on the very terms they are willing to accept for the balance. But we have changed our form of city government, and they ask the bonds of the new government, and they ask the bonds of the new government, and they ask the bonds of the new government. ment in exchange for the old. It would be lesirable to avoid setting a precedent of authorizing the Taxing-District to issue evidences of indebtedness. But, after all, if we leny it the taxing power, and restrain it from contracting other debts, there seems no insurementable objection to imposing upon it the

I from contracting other debts, there seems no insuperable objection to imposing upon it the duty of issuing these bonds. And if a sufficient tax is laid to provide for the interest, the reception of the coupons for taxes may not prove a serious inconvenience. But the committee are deeply impressed with the great importance of a settlement of this debt. In its present the proper settlement of this debt. All classes are deeply interested in the question—none more than the mechanics and laboring men, who would be largely

and laboring men, who would be largely benefited by the growth and prosperity likely to follow the settlement.

These are some of the considerations that have induced the members of this committee to forego their individual wishes and opinions, and to favor a settlement on the terms indicated herein. We are entirely satisfied that no settlement can be effected on any more favorable terms. To reject these is to have no settlement at all, and to declare that it is better to take the chances of the litigation that is now pending of the litigation that is now pending recommend that suitable persons be ap-pointed to attend to the preparation of a proper bill, carefully guarded, for the settle-ment of the debt on the footing stated above,

The stock of the Memphis and Charleston road has been quite active lately, says the New York World, on rumors that its lease to the East Tennessee, Virginia and Georgia Railroad Company was about to be canceled. The Memphis and Charleston road runs from Memphis, Tenn., to Sievenson, Ala., a distance of 292 miles, and it has branches aghat the Kansas City road is being rapidly gregating twenty milesor more. Its trains run over the Nashville, Chattanooga and St. Lonis road for thirty-eight miles, between Stevenson and Chattanooga, for which the company pays a rental of \$5000 a month, the lessors

pays a rental of \$5000 a month, the leasons keeping the track in repair. This makes the total of all lines operated 330 miles.

The Memphis and Charleston railroad is now operated by the East Tennessee, Virginia and Georgia road under a lease dated Juce 2, 1877, for twenty years from July 1, 1877. The lessees are first to apply the net earnings to the payment of interest; any balance to be paid over to the lessors.

Since July 1, 1877, the East Tennessee. Since July 1, 1877, the East Tennessee Virginia and Georgia road has taken up and hold against the Memphis and Charleston road coupons on its bonds to the amount of \$1,080,000. It has received in earnings for \$1,080,000. It has received in earnings for the Memphis and Charleston road since the dabt has been accumulating about \$330,000, leaving a deficit of about \$750,000, for which deficit the above coupons are beld as se-curity. The Memphis and Charleston is, therefore, about \$750,000 behindhand. The Memphis and Charleston people are very anxious, as Wall street slang has it, to "get out of pawn," and take possession of their road and operate it themselves, and the plan they have adopted is as follows: They pinn they have adopted is as follows: They are to pay a bonus of \$400,000 for the cancellation of the lease, and \$750,000 for the interest already paid by the East Tennessee, Virgini and Georgia road; also about \$180,000 for stock held by the latter company, making a total of \$1,330,000. The next thing was to raise this amount and to do so thing was to raise this amount, and to do so they have decided and have been authorized by their stockholders to issue about \$5,000,-000 in stock and about \$300,000 in bonds. This, if placed even at twenty, would give The interest at present on the Memphis and Charleston bonds is seven per cent., making a total of \$295,540 a year. This amount

the read has not been able to earn since 1878, and in 1881 there was a deficit of 1878, and in 1881 there was a deficit of \$113 30 a mile. The gross earnings for the five months ending November 1, 1881, were \$538,000, and for five months ending Novem-ber 1, 1882, \$376,000, making a decrease of \$162,000. MEDICATED STEAM

Vermin Destroyer

DISINFECTANT,

NEW AND WONDERFUL INVENTION

Moths and Parasites of all kinds.

The apparatus for generating the steam is an ordinary nursery lamp holding half a pint of the Medicated Flui i, with a tube at the top to direct the Medicated Steam upon any point infested with insects. It is heated with a small spirit lamp beneath the boiler. For Dwellings, Hotels, Steam Ships, Restaurants &c., nothing ever discovered equals this appliance. It is harmless to human life; is inexpensive and simple in its use. While a most potent means for destroying Vermin it is the best disinfectant known and may be most effectually used to prevent the spread of contagions diseases, such as Yellow Fever, Scarlet Fever, Typhoid Fever, Diptheria, Small Pox, &c. One trial is the best proof of the great advantages of this over all other
